Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Monday 04 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Showers today. Wet and windy for England and Wales tonight.

Today:
Showers, some heavy, particularly in the west and south-east at first, developing elsewhere through the day. Some sunshine between the showers, best in the east. Rain and strong winds reaching the far south-west later.

Tonight:
Heavy rain moving east across England and Wales with strong winds and coastal gales in the south and west. Patchy frost and fog for central and northern Scotland.

Tuesday:
Persistent and at times heavy rain and strong winds for northern England and south-east Scotland. Rain clearing to blustery showers and sunny spells in the south and west.

Outlook for Wednesday to Friday:
Cloud and rain affecting Northern Ireland and Scotland at times, heavy and persistent in the west. Elsewhere, becoming largely settled with variable cloud and some morning fog. Becoming warmer.
